CERVERA AS A CITIZEN

Spanish Admiral May Remain in the United States.

ADMIRE AMERICANS AND MAY SWEAR ALLEGIANCE.

Annapolis, Md., July 22—Special—There is a probability that Admiral Cervera and his son, both of whom were made captive at Santiago, and who are now prisoners of war here, may become American citizens. The threats from Spain that the admiral would be tried for treason on his return to that country have, it is said, forced him to this conclusion. He has become, besides, a great admirer of the American people since his arrival here, and has frequently expressed his gratitude for the consideration shown him. One thing is certain, neither the admiral nor his son will return to Spain unless assurances are given that they will not be held responsible for a disaster that was not of their seeking and for which they were not responsible.

Holguin to Be Attacked.

Washington, July 22—Special—Shafter's soldiers have more fighting before them. It has been determined to march overland to Holguin and compel the surrender of Gen. Luque with his garrison. This plan involves hard work for the army, but is less hazardous than it would be to remain in Santiago where yellow fever menaces the camp. There will be little danger of the fever in the mountains about Holguin, and operations can be conducted there with comparative immunity from disease. The plan was suggested by Gen. Shafter and has been approved by the war department. Holguin is an important strategic point, and is defended by about 10,000 Spaniards.

Ready to Surrender.

Manila, July 18—Special—The Spaniards entirely despair of success. They condemn the proposal to retire within the citadel, which is defenceless, claiming that to do so would be inviting slaughter. Food is becoming dangerously scarce. The garrison will probably be compelled to surrender soon, though it is likely it will make a pretence of fighting the Americans.

Negotiating For Peace.

Paris, July 22—Special—It is reported that secret peace negotiations are in progress between the Spanish and American ambassadors here.

Madrid, July 22—Special—The minister of public works makes the statement that a peace honorable to Spain will be concluded shortly.

Fred Grant Gets a Command.

Washington, July 22—Special—Gen. Fred Grant was today assigned to the command of the Third brigade, First division. The brigade consists of the First and Third Kentucky, and Fifth Illinois now at Chickamauga awaiting orders from the government.

What the Junta Doesn't Know.

New York, July 22—Special—The Cuban junta here has not been notified that Garcia has withdrawn his troops, and refuses to co-operate with the Americans. The junta does not know that Garcia has resigned his command.

Germany in the Philippines.

London, July 22—Special—The Birmingham Post asserts that despite denials, there is good reason for saying that Germany very recently made overtures to Spain for a naval depot and coaling station in the Philippines.

Yellow Fever Suspected.

Newport News, Va., July 22—Special—Several cases of fever of a suspicious nature are among the Santiago heroes now lodged at Old Point. Efforts will be made to isolate every case that bears the ear-marks of yellow fever.

Duffield Getting Better.

Washington, July 22—Special—Gen. Duffield, who is down with yellow fever at Santiago, is reported to be recovering.

BARTOLOME MASO,
President of Cuban Republic.

COL. SAMUEL T. CUSHING,
Commissary General United States Army.

Watson's Expedition.

Washington, July 22—Special—The announcement by Secretary Long that Watson's expedition to Spain has not been abandoned but merely postponed until after the occupation of Porto Rico is not regarded here as anything but a subterfuge, although the secretary is doubtless safe in making the statement. It is understood that with the fall of Porto Rico Spain will sue for peace, when Watson's expedition will, of course, be unnecessary. The fact is, as stated in these dispatches yesterday, that the expedition has been definitely abandoned because of the representations of foreign powers whose interests might become involved in case of an invasion of Spain.

Well On Their Way.

Washington, July 21—Special—Gen. Miles and his ships passed Mole St. Nicholas, Hayti, today.

TEXAS TRAIN ROBBERY

Fireman Killed and Engineer Wounded By Bandits Who Are Still At Large.

Forth Worth, Texas, July 22—[Special]—The men who held up the train near here last night are still at large. Fireman Whitaker was instantly killed and Engineer Williams wounded. It is believed one of the robbers was shot.

SOME MAY BE SENT HOME

Members of the First Regiment to Be Submitted to Examination

Jacksonville, Fla., July 22—The members of the First Wisconsin regiment are to be re-examined physically and those who are unable to pass favorably will be discharged. An examining committee will be appointed, consisting of three surgeons of the regiment. The men were not thoroughly examined in the hurry of the muster in and it is expected quite a number of them will be found to be lacking when it comes to the test.

Applications have been received from a number of recruits who desire to enlist and there will be enough of these to fill all places made vacant.

Major Edward Martin, brigade surgeon, today passed through here on his way from Tampa to Fernandina to inspect the camp grounds at the latter place for the removal of troops from Tampa.

Members of the Coterie club and their friends enjoyed a dance at Crystal Springs last night, leaving on the Columbia at 8 o'clock and returning about midnight. Fleck's orchestra furnished the inspiration. These fortnightly dances of the club are becoming very popular, and are looked forward to with a great deal of pleasure.

BUILDING SOCIETY INSOLVENT

Milwaukee Association to Wind Up—Charges of Mismanagement Made

Milwaukee, July 22—The Home Building & Loan association of this city, one of the largest concerns of its kind in Milwaukee, will be placed in the hands of a receiver tomorrow.

Edward L. Kidd, state bank examiner, has discovered that the association is insolvent and has advised that steps be taken at once to have it wind up its affairs.

The association's insolvency is the result of unprofitable speculations by John Harvey Myers, the secretary, who, according to his own attorney, has confessed to a deficit of about \$30,000. Some of the directors, however, say that the shortage is greatly in excess of this amount, perhaps more than double it. The association's total liabilities are between \$150,000 and \$180,000.

There are about 250 stockholders in the association, and it is said that they will lose practically everything. The heaviest loss will fall upon the directors, some of whom, it is said, will lose from \$10,000 to \$20,000 each.

TWO STRUGGLED IN THE RIVER

Row Boat Capsized and Nearly Caused a Double Drowning.

Two men narrowly escaped drowning back of the bridge stores yesterday afternoon. One of them stepped into a row boat and was capsized in eight feet of water. He was rescued and his companion got into the boat, and upset with equal promptitude, at took longer to fish the second man out, and he was well soaked with water when pulled upon a platform.

GO TO NORTHERN WISCONSIN

Janesville Men Start on a Fishing and Hunting Trip.

George S. Parker and J. Burt Hobbs leave tonight for Manitowish, in the northern part of the state, where they will meet a party from New York and drive inland twenty miles from civilization to one of the numerous lakes of that locality and pitch their camp. The country abounds in all kinds of game and fish, and two weeks will be spent in the work of extermination of the same.

START FOR PORTO RICO

Troops Are On the Move From the Several Camps.

MILES AND HIS SHIPS PASSED THE HAYTIEN COAST TODAY.

Washington, July 22—Special—Nothing further will be heard from the Porto Rico expedition until a landing is effected. It is given out freely that the island is to be held for the payment of a war indemnity by Spain. This doubtless means the permanent occupation of the island by the United States, as Spain has no resources from which an indemnity can be paid. Gen. Miles, who has personal command of the invading army, is unhampered by instructions save of a general nature, and will act largely on his own responsibility. He will be able to make the occupation complete with little hard fighting. His chief task will be in preventing the insurgents from committing excesses. It is reported here that the Spanish garrison at San Juan will offer only a perfunctory resistance.

Washington, July 22—Special—Gen. Brooke and staff have been ordered to leave for Porto Rico Sunday.

Dewey's Dilemma.

Hong Kong, July 22—Special—A brief dispatch from Manila notes the arrival of the second installment of reinforcements for Dewey. This gives the admiral an ample force with which to complete the conquest of the islands. He expects to demand the surrender of Manila within a day or two. He might have occupied the city some time ago, but was not strong enough to hold it against the pillage of the insurgents, whose excesses the Americans fear more than they fear the Spanish guns. A strong arm will be needed to hold the rebels in check. They are eager for revenge for the wrongs they have suffered, and would show no mercy to the Spaniards if once in control.

Sampson's Report.

New York, July 22—Special—The cruiser St. Paul arrived today from Santiago with Lieut. Hobson aboard. It is said to carry Sampson's report of the Santiago naval battle. Hobson was tendered an ovation by thousands, who lined the wharves. He refused to talk further than to say he bore important dispatches to the president.

Troops From Camp Alger.

Washington, July 22—Special—Two hundred officers, fifty-one hundred men, a hundred and fifty cars left this morning for Newport News. The installment consists of Paine's brigade, with a hospital and signal outfit and an additional battery. It is expected that part of the command will sail tomorrow for Porto Rico.

They Expect Independence.

Washington, July 22—Special—A dispatch was received this morning from Gen. Anderson, who has arrived at Manila with the second expedition. He says Aguinaldo has declared martial law all over the island, and assumed the dictatorship. The people expect independence.

Will Give an Object Lesson.

Chicago, July 22—Special—A News Santiago special says: It is said when Garcia left with his army he marched to attack Holguin, which is garrisoned by 10,000 Spanish regulars, in order to show Shafter the insurgents can fight.

Start For Porto Rico.

Chattanooga, July 22—Special—The Fourth Ohio, Third Illinois, and Fourth Pennsylvania left this morning for Newport News, where it is expected they will embark for Porto Rico.

Taken By Tenants.

Santiago, July 22—Special—The abandoned farms in the conquered district are being occupied by their former tenants.

Losing His Mind.

Annapolis, July 22—Special—It is believed that Capt. Eulate, of the Vizcaya, is losing his mind.

The pouch for Janesville leaves here at 2:35, while the one from Janesville arrives at 7:45 p. m. Heretofore it has taken two days to get mail to and from the county seat notwithstanding the fact that we have direct railway connections and thirteen passenger trains daily on the O. & N. W. railway alone. The new service will prove a great convenience. At the postoffice a new sign has replaced the old one that has swung in the breeze for over a quarter of a century. "Afton Postoffice" is the legend on the new board, thus giving bloyois tourists and others a pointer as to where they are at without the necessity of making inquiry. Hall did considerable damage to some places of tobacco south of here early this morning. At the home of J. E. Eddy in the town of Beloit, the storm appeared to take the form of a miniature cyclone, blowing down trees and damaging the windmill and house to some extent. Mrs. George B. Osgood has received a letter from a member of Company E, at Jacksonville, Florida, announcing that her son, Clark, is in the hospital sick with the measles. Mrs. Osgood has telegraphed Captain Rogers for particulars regarding her son's condition. The Afton Woodmen will meet in regular session next Saturday evening at which time a new member will be given the second or "fraternal" degree. At the last meeting the subject of holding the annual picnic was discussed and a special committee consisting of Messrs. U. G. Walte, George S. Otis and Peter Drafahl was appointed to have charge of the preliminary arrangements. Superintendent David Throno spent Tuesday in the state capital. Miss Lillie Skinner, of Beloit, was the guest of Miss Alice Eldredge, last week. Mrs. A. M. Blank is visiting her son Frank, at Hebron, Ill. Miss Virginia A. Scott returned last Friday from a visit with friends in northern Illinois. A Beloit news item states that Messrs. O. D. Antiedel and B. J. Eddy, of that city, have gone to Buffalo, N. Y., to the B. Y. P. U. convention. Both are former Afton boys, well known here. Last Monday forenoon J. B. Humphrey unloaded and hauled home from here a carload of lumber for his new barn. Postmaster Walte expects to be doing a money order business at the postoffice ere the month closes. The necessary books and blanks have arrived, and the rest of the supplies are expected every day. The inauguration of the system here will prove a great convenience and facilitate matters in the sending of money.

Afton, July 22.—Beginning with last Wednesday morning Afton people will now have an early morning letter mail from Chicago and in emergency points. This service is given in connection with the regular morning paper mail and is a very important addition to the excellent mail facilities now enjoyed by patrons of this office. Ground was broken Wednesday for the grade of the new side track to be laid in the O. & N. W. yards here. The new siding will start at a point opposite the stock yards and will run north parallel to and on the east side of the Janesville track for a distance of 2,230 feet. HAVE PLENTY OF OIL FOR THE MACHINE

LA FOLLETTE SAID TO HAVE A STRONG BACKER.

Has a Senatorial Bee—Puts Up Money For Fight Against Scofield—Wisconsin Man Who Wants to Go to Washington Casts His Lot With Madison Man.

Milwaukee, Wis., July 20.—[Special Dispatch to the Chicago Inter Ocean]—Who supplies the LaFollette machine with money?

This question has been puzzling the straight republicans, for some time, and when it is properly answered the people of Wisconsin will be treated to a great sensation. There is a story in circulation, which finds belief among men whose word and judgment can usually be relied on, that Candidate LaFollette and his followers have entered into a deal with a typical representative of the so-called corrupt system which they claim to be fighting and seeking to reform, and a man known principally by his money, and who has been seized by the ambition of succeeding Senator John L. Mitchell in the United States Senate. That man, so the story goes, has contributed \$5,000—others say \$10,000—to the LaFollette campaign fund, with the understanding that if the storehouse and legislature are captured by the LaFollette machine he shall be chosen United States senator in January, 1899. This story, which if true, would unmask all the hypocrisy of the reformers who are flocking into the LaFollette camp, is being thoroughly investigated and the moneyed man in question will be called on to give a straight answer.

Using Much Money.

It is a well known fact that Mr. LaFollette is conducting a complete bureau at Madison. Nine stenographers are kept at work, and they are assisted by certain clerks employed by the state, acting as spies, and a corps of volunteers, who attend to a vast correspondence and the mailing of vituperative pamphlets, or of alleged weekly newspapers, full of venomous attacks on Governor Scofield. A blackmailing press, published weekly in different parts of the state, is being subsidized by the purchase of thousands of copies for distribution from the LaFollette headquarters, published in Madison by a LaFollette coterie, is distributed every week, marked "Subscription Paid" to save postage. All this requires a great outlay of money, and the question is where does the money come from? Those generally known as LaFollette supporters are not endowed with too much of this all powerful weapon. All together they could not raise, in the estimation of those who are familiar with their bank accounts, more than \$3,000, while much more is supposed to have been spent by the LaFollette bureau, which has been at work ever since the fall of 1897.

Machine Is a Good One.

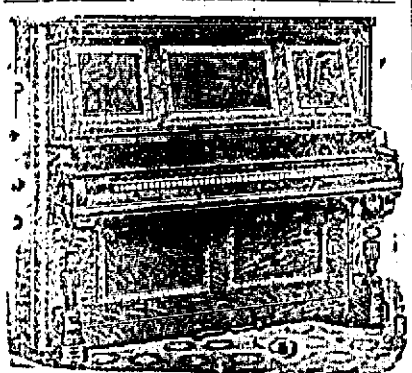

Against this mass of calumny and denunciation which has poured forth for months from the LaFollette bureau against Governor Scofield, nothing so far has been done on the other side. Only a few newspapers have taken the side of the governor, while to some of the Democratic yellow journals the vapors of blackguards, who are numerous in the LaFollette camp, have been "welcome matter." Every denunciation of Governor Scofield emanating from A. R. Hall, who hails from the wilds of Dunn county, has been picked up by them and elaborated on; to the detriment of the republican party; to which LaFollette and his followers claim to be loyal.

The LaFollette machine is thus an accomplished fact. It has branches, and it probably justifies the boast made by LaFollette two years ago, after his defeat for the gubernatorial nomination, that he had the best political machine that has ever been in existence in the state.

George W. Wolff, a member of the last state assembly, who resides in Sheboygan county, has been brought out by the LaFollette machine as a candidate for congress in the Fifth district, in opposition to Congressman Barney.

Judge James J. Dick, of Beaver Dam, is the latest man proposed as governor on the democratic ticket, and to this proposition there appears to be something tangible.

LIVE OR DIE, MR. LA FOLLETTE?

The Milwaukee Evening Wisconsinian, in a lengthy editorial, discusses Mr. La Follette's candidacy, and closes as follows:

"If Mr. La Follette is a wise man he will withdraw as a candidate, and permit Governor Scofield to be renominated without opposition. That would be the graceful way to secure a broad and enduring popularity among the freemen of Wisconsin who readily distinguish between aspirants for office and public men who do not have to aspire because the people are behind their backs."

Mr. La Follette would do well to listen to The Wisconsinian's sage advice. The brilliant young Madisonian is staking his political all on the turn of a single card, when even his friends are free to admit that he cannot hope to win. That he is a man of ability no one questions, but that the methods of his machine are bad is equally true. The thing for Mr. La Follette to do, as The Wisconsinian suggests, is to withdraw and devote his energies to helping his party rather than injuring it. By so doing he will demonstrate that he has the interests of the republican party at heart; but if he continues his bushwhacking campaign he can only expect the crushing defeat that the tactics of the machine has made inevitable. The question is purely a personal one. If Mr. La Follette prefers defeat under a party stigma to reputation for loyal service to the party, he will stay in the race. It makes no difference to the mass of republicans in Wisconsin, as they prefer Governor Scofield anyway, but Mr. La Follette's political life is at issue. The Gazette does not owe Mr. La Follette any ill will, and does not wish to see him placed in a political coffin unless it is necessary to sacrifice him for the party good. There can be no question about what he deserves political death if he persists in his present course, but if he abandons his unfair and unskillful for guerrilla campaign and

puts his shoulder to the wheel he will win the respect of all. He must realize, as every other republican does, that his platform sets forth no material principle to which Gov. Scofield is not strongly committed. This being the case, Mr. La Follette cannot claim that his candidacy is based on anything more than a desire for office. Hence, the time for him to show his hand has come and upon his decision as to the wisdom of the suggestion made by The Evening Wisconsinian, his political future depends.

OUR NEW POSTOFFICE.

Janesville people owe Congressman Cooper good will because of his work for a new government building for the Bower city, if for no other reason. Congressman Cooper has secured the unanimous report of the Committee on Public Buildings and Grounds in favor of appropriating \$100,000 for this purpose, and got the bill on the calendar. It was not passed because that committee was not allowed the floor even once during the session of the fifty-fourth congress, nor thus far during the present session of congress. The house was informed that no house bills for public buildings would be allowed to pass while there was such a deficiency in revenues, as the income must first be equal to the outgo. The wise revenue laws formulated by the republican party will soon provide the funds, however, and then Janesville will certainly have a handsome new public building—for which they can thank Congressman Cooper.

"Sure," said Mr. Casey to Mr. O'Hoolihan after they had reached an understanding for an "honorable peace." "We can well get along without any new Brinet novels while the money saved is split 't open up a strait to the detention hospital, an' Tom Baker is compelled to be the forerunner of the law 't pull down 'is fence. The council is gittin' down 't business now. We don't need any story books while Richard Hardin Davis is a writin' them fairy tales 't 'is daily prize. When yez read about th' doin's of th' O'Connors du Chinnay in wan o' them books writ by Victor Dago—oh think that's th' Brinet novel's name—yez hav' an attack of 't puffygrass or th' liver—." Whereat O'Hoolihan again committed assault and battery.

Remember, good and patriotic citizen, that Governor Scofield does not consider your political fealty so unstable that he can buy it with a paid up subscription to a newspaper published wholly in his behalf. Nor does he beg your vote on any grounds, whatever. He simply says: "You know my record. If you approve of it, vote for me. If not, I shall not complain." What proposition could be more simple, more business like, or more honest? The people admire candor and appreciate worth, and they will honor themselves and their state by retaining Governor Scofield in the office he has so creditably filled.

There has been some speculation as to whether or not a certain well known

Postmaster,
Assemblyman,
School Commissioner,
Would be
Plain democrat,
Gold democrat,
Silver democrat.

But it now appears that he is neither, but instead, a La Follette man.

Admiral Sampson and General Miles must not think that the war will stop because they cannot agree. Commodore Schley and General Brooke, for instance, might be able to pull together and do something.

The stores that the Wisconsin soldiers at Charleston were abused, is denied, by Col. Born in response to Gov. Scofield's dispatch asking for the facts in the case.

The statement of Surgeon General Sternberg that the army medical corps is successfully combating yellow fever is good news to the American people.

The cheerfulness with which the employee of a railway company hasten to give a newspaper information regarding an accident is remarkable.

If General Miles and Admiral Sampson cannot agree, the government should take them both by the neck. There is no time now for bickering.

Contracts for meat for the navy are being let, and it seems quite appropriate that the armored vessels should be supplied with Armour's beef.

A major in the German army has offered his services to the United States. The offer should be accepted, and the major sent to the Philippines.

Perhaps the library committee did not look in the right place when the members were out hunting for kickers.

But really now, Mr. Recorder, Mr. Cooper could hardly have been expected to leave a democrat in office.

INTO A RICH FIELD THEIR LINES RUN

JANESVILLE MERCHANTS OUT FOR NEW BUSINESS.

This City the Natural Center of a Magnificent Territory Teeming With Trade That Can Be Easily Diverted to Janesville—Means of Reaching the Buying Public.

To Janesville Business Men—The territory tributary to Janesville in a business way is growing steadily. The trade circle of the city in many lines of merchandise has extended ten miles in the last five years. More than one business man credits this increase to the thoroughness with which the southern Wisconsin field is covered by the Janesville Gazette. The Weekly Gazette reaches nearly every home in Rock county and a large proportion of the well-to-do homes in adjoining counties, while the daily is delivered by carriers each evening in the adjoining towns and villages. Traders from Brodhead, Monroe, Albany, Monticello, Mineral Point, Plattville, Brownstown, Clarice, Juda, Elkhorn, Delavan and Fort Atkinson, as well as the people of Rock county are thus brought in close touch with the trade opportunities which the larger merchants of a city like Janesville are invariably able to present.

If you wish to reach the well-to-do farmers of the section of Wisconsin represented by the populations of the above mentioned towns, be sure to make use of the Weekly Gazette. The only sure way to reach those people is through the medium of the mail; and postage, paper, printing and envelopes are expensive, costing many times the expense of a good sized display ad. in the Weekly. The paper is issued Tuesday and Friday evenings, and copy for ads should be handed in bright and early the morning of these days. The papers are mailed the same evening, so that buyers are reached early the next morning or whenever they get their papers from their post-offices, which they have become accustomed to in these days, owing to the regularity with which they know they can expect them.

An advertising contract is not complete unless it includes insertions in the Weekly Gazette.

JUDGE PHELPS MEETS AN INJURY

WHILE RIDING A WHEEL COLLIDES WITH A TRAIN.

Sustains a Fracture of the Leg and Other Serious Hurts—Does Not Realize the Extent of His Disability for a Considerable Time After the Accident.

Judge M. M. Phelps is now confined to his bed with injuries that resulted from an attempt to dispute a street crossing with a railway train, and it will be many weeks before he can claim to be himself again.

Last evening as the judge was returning home from his farm in the town of Rock on his bicycle he attempted to make the Monterey crossing ahead of the Madison and De Kalb accommodation. He miscalculated the distance, however, and struck the point of junction between the highway and the railroad track at the same time the train did and was hurled violently to the ground. He sustained a fracture of the right leg just above the knee, his jaw was broken, his forehead badly cut and his teeth badly lacerated his tongue.

Nature of His Injuries.

The judge was picked up in a semi-unconscious condition and conveyed to his home. Here his injuries were dressed by Dr. Q. O. Sutherland, who pronounced them serious but not necessarily fatal. There were no indications of internal injury, so that the chance of the judge's speedy recovery are quite favorable.

The Monterey crossing has long been regarded as one of the most dangerous in the city, and is but poorly guarded. This accident will doubtless result in more safeguards being placed there. The road is a favorite one for cyclists, and many lives are placed in jeopardy there daily.

Although Judge Phelps is a man well advanced in years he has been enjoying a goodly share of physical vigor, and in consequence will doubtless be able to withstand the injuries he has received better than a less robust man of his years.

Bore Up bravely.

The judge was so dazed by the accident that for a time he could not realize that he was hurt. He protested to those about him that he was all right and perfectly able to care for himself, and it was only when he tried to use his broken limb that he realized the fact that he needed assistance. Even then he made light of his injuries, asserting that he would be around in the morning as well as ever. It was not until after the effects of the shock had passed away that he was content to receive the assistance he needed in order to reach home. During all of today he has borne the pain bravely and uncomplainingly, his only regret appearing to be that he was unable to come down town to attend to his usual duties.

During Judge Phelps' disability the work of the municipal court will be carried on by Judge Patton in conjunction with Judge J. W. Sale, the latter disposing of such cases as under the statutes would properly come within his jurisdiction.

A Demoralized Wheel.

The wheel Judge Phelps was riding at the time of the accident was today attracting almost as much attention as a bulletin board did during the early days of the present war. It was the center of attraction all day at the baggage room of the U. & N. W. depot, and those that examined the mass of bent, broken and twisted tubing, tangled spokes, etc., marvelled that Judge Phelps was not killed outright.

BLEW AWAY A TRUCK WAGON

Storm Interfered With Janesville's Supply of Garden Produce

Two wagon loads of "garden truck" come to Janesville every morning from Brodhead. The wagons are loaded at night and an early start brings them in Janesville about the time the stores open. The night of the storm one of the wagons disappeared completely. It stood in the path of the cyclone at Brodhead but where it was blown to nobody knows. Not a trace of it has been found since.

Japan's Finances.

Great navies cost money. It has been said by an English writer that England has no vessel in eastern waters that could stand up against any one of the three Japanese battleships, while the entire fleets of Russia and Germany in the Orient could be easily destroyed by Japan. The increase of Japan's navy has been marvelous, but it has brought an increase in taxes. The land tax has been increased from 21,500,000 yen to 39,000,000 yen, the tax on salt has been increased 40 per cent, and the public debt is rapidly growing.

MUCH HARDSHIP IN CUBAN CAMPAIGN

LIEUT. L. F. RICHARDSON
WRITES OF EXPERIENCES.

Life in the Intrenchments is Beseet With Many Dangers—Many of the Soldiers Suffering From Fevers—Some Very Hard Fighting in the Trenches.

Mr. and Mrs. Hamilton Richardson, of this city, received the following interesting letter from their son, Lieutenant L. F. Richardson, of the Twentieth U. S. Infantry, stationed at Siboney, Cuba:

Siboney, Cuba, June 30—Last night our first mail came in. They say we have about 300 sacks of mail at Tampa. They have just gotten a postoffice established at our place, so we shall probably do better, though still very poorly. We are still at Siboney with the rest of the brigade, doing guard duty, though we expect to move up at any moment. The rainy season has begun in earnest, after an unusually long postponement, so the natives say—and it comes down in torrents every afternoon for a short time. Otherwise the climate is very pleasant. The heat is great in the sun, but in the shade it is cool and delightful. The nights are glorious. I sleep under a blanket always. We are better off than those farther to the front as regards comfort, and have altogether much to be thankful for.

Before Santiago, July 4—This is the first chance I have had to send a line since we left Siboney. I wrote from there June 30, and we marched that night at noon. The past week has been one of fearful hardship. I will not attempt to describe the operations to you, as you have gotten all that in the papers before this and know it all better than we do ourselves.

The regiment was under fire for the first time July 1, and on July 2 took up its present position and intrenched. Many are sick with malaria fever and the heat. I had three days of it, though I did duty all the time.

NOTE AS DRAWN IS VALID

Judge Bennett Decides That Verbal Changes of Conditions Are Void.

In the circuit court today Judge Bennett heard the motions in the case of John C. McAvoy vs. J. S. Gundersen, the action being on a promissory note. The defense claimed that the note was not to be paid until the earnings of a certain business should be sufficient to pay the same. The judge held that the evidence showed an attempt to vary and contradict the note and ruled out the defense, giving judgment to plaintiff to amount of note. Smith & Dow appeared for plaintiff, the defense being conducted by E. D. McGowan.

Judge Bennett also heard a motion in the Bank of Edgerton case to strike out the demurrers. The case was held over until Aug. 6 on account of the absence from the city of M. G. Jeffries.

WASHOUT NEAR EVANSVILLE

Train Was Delayed in Arrival Here But No Serious Damage Done

The "vestibule limited" on the O & N. W. had a mishap this side of Evansville this morning. The engine and baggage car left the track in a cut where the new double track had been disturbed by rains. No damage was done but the train pulled into Janesville two hours late.

The train was derailed at the switch just at the entrance to the Evansville yards.

In consequence of the delay engines were changed here instead of at Harvard.

AGENTS TOLD LIES ABOUT INSURANCE

MASS MEETING OF ORFORDVILLE POLICY HOLDERS

They Gather to Ask Questions of President Paige, of the United Farmers' Mutual Hail Insurance Company—He Promises to Make Everything Right.

Hail insurance policies are making trouble for Rock county farmers. An agent for a Sparta company, the United Farmers' Mutual Hail Insurance company has been canvassing among farmers and collecting \$2 for each application filed. Many near Orfordville applied for policies and put up their cash. After waiting until this week they held a mass meeting and sent E. H. Skinner to Sparta to investigate. He found that agents had lied right and left. Conditions had been greatly misrepresented. An Orfordville correspondent of the Broadhead Register says:

"Mr. Skinner reported to the president of the company the state of affairs and Mr. Paige at once decided to come to Orfordville and rectify any misunderstanding which existed. At the meeting last evening the president offered to correct all difficulties to the entire satisfaction of all. He left this morning for Janesville where he will arrest the agents if they can be found."

OUR DAILY STORY

A BOOMERANG.

When I got George's letter telling me that all was now ready for our reception and we were to come at once, I was delighted. Within a week mother and I—were on our way out and in about three weeks' time found ourselves between the swampy shores of the Essequibo, nearing Georgetown, where on the quay the dear fellow was waiting to take us up to the home he had made for us on his plantation.

George and I had met a year before during his visit to the old country, and the big, quiet, sunburned man and I, who told this story, had fallen in love with one another almost at first sight.

We were to have been married before he returned to Guyana, but he was recalled suddenly by the death of his only brother at Rio, and it was arranged I should follow later with mother.

You can, or, rather, you can't, imagine how delighted I was to see my sweetheart again. But I was startled and a good deal troubled by his appearance. He looked thin and worried. At first I put it down to his grief at Harry's death, but later, after our quiet wedding, on the way to my future home, I gathered by degrees there was more than that.

His brother Harry had married a Spaniard, a beautiful woman, who had died nearly 18 years before, leaving him with one daughter, Teresa. It was chiefly on this girl's account that George had hurried back, and he had mentioned in writing to me that he had brought her up from Rio to stay with him in Guyana until other arrangements could be made. Since then I had heard little of her and almost indeed, in my own happiness and excitement, forgotten her very existence.

Now my questions elicited from George that she was not a pleasant tempered young woman or easy to get on with, but my worst anticipation did not touch the reality.

We came up the river in a small steamer, which dropped us at my husband's very wharf, and we three walked up a slope through a wonderful tropical garden to where a long, whitewashed, green shuttered house shone clean and bright in the evening sun.

On the veranda stood a tall figure in a pale yellow gown, her black hair crowned with crimson hibiscus—a splendidly handsome woman!

She looked at me in a half disdainful way.

"So you're my new aunt?" she said casually. "And how do you do, Uncle George?"

Her calm assumption of superiority was unbearable. George—big, steady, good tempered man that he was—flushed with anger.

He whispered to me:

"Never mind, my dear. She knows no better, and it won't be for long."

But it was for longer than we reckoned. She was to have been sent to her godmother, who lived in Madrid, but the old lady was ill and begged us to keep the girl awhile longer.

It was trying to a degree and each day got worse and worse. Teresa's temper was something unbearable and her general lack of manners only equaled by her sweetness when there was anything to be gained by it. Still, for my husband's sake, I bore with her.

Toward the end of the cool weather our old English overseer died, and, as a stop gap, George took on a young Spanish-American, Ramon Martinez.

Ramon was a smart looking fellow, but there was something in his black eyes which repelled me. I always felt a shrinking repulsion for the man, and George didn't care much for him. Still it was necessary to have some one who understood the sugar, and men who knew anything were so scarce you couldn't pick and choose.

Teresa, who loved the cheap gayeties of Rio, had been simply bored to death all the winter. Ramon was a godsend to her, and the two used to chat in Spanish every evening over their coffee on the veranda.

Sometimes I blame myself for letting them be so much together, but to tell the truth the relief of getting rid of her even for an hour or two was very great. And how could I know what a scoundrel the man was or what unspeakable wickedness those two were brewing together?

And now I must pass over the events of the next ten months and tell you what happened on that dreadful day which so nearly proved fatal to all my happiness.

Old Juan, a half caste Indian employee on the place, came up that morning, wanting to see my husband. They talked for a time, and then I saw George go out with a gun on his shoulder. He saw me at the window and called out something, but I could not hear what he said.

He was a keen collector, and I supposed it was some rare bird or beast he was after.

The day passed, and the short, tropical twilight was closing over the forest, when I saw George returning. He was followed by two negroes, who slowly

WE WILL KEEP PORTO RICO

Authoritative Statement Given Out at Washington.

MAY ALSO HOLD LADRONES.

Possession of Porto Rico Will Go Toward Making Up to Us the Heavy Expense of the War—Nothing Is Settled as to the Philippines.

Washington, July 22.—The authoritative declaration was made today that the island of Porto Rico is to be held as a permanent possession of this country as the price of the war. The subjoined practically official statement was made:

"Porto Rico will be kept by the United States. That is settled and has been the plan from the first. Once taken it will never be released. It will pass forever into the hands of the United States and there never has been any other thought. Its possession will go toward making up the heavy expense of war to the United States. Our flag, once run up there, will float over the island permanently."

The same authority says the future of the Philippines is a matter of development, and that so far there is no certain policy finally adopted regarding these islands. They are subject to developments in the war situation in the Pacific. It was intimated, however, though not definitely asserted, that the Ladrones islands might follow the fate of Porto Rico and become our permanent possession, being valuable as a coaling and supply station for our ships when en route to eastern Asia.

PRIZE MONEY IN QUESTION.

Navy May Make Nothing by the Destruction of Cervera's Fleet.

Washington, July 22.—Admiral Sampson has not only been overruled by the war department in his claim to the small war vessels in Santiago harbor, which were surrendered by Gen. Toral to Shafter, but a question has been raised as to the right of himself and his officers and sailors to prize money for the destruction of Cervera's squadron.

The point has been already raised that the navy is not entitled to bounty or "head money" for the destruction of Cervera's vessels because the army co-operated with the navy, and that by the operation of the army Cervera's squadron was forced to leave the harbor. Attention has been directed to a decision by the Supreme Court of the United States delivered by Justice Field during the civil war in the case of the steamers Shenandoah, Texas and Beaufort, captured on the James river, in April, 1865. It was made very plain by Justice Field that no prize money could be allowed for the destruction of vessels where the army had lent its aid, even by operations several miles distant.

To Revive a Law of 1861. Washington, July 22.—Major John Byrne of New York, president of the Soldiers and Sailors' Families Protective Association, is in Washington in the interest of a revival of the law of 1861 under which an allotment of the pay of soldiers and sailors was made to the families of volunteers through the pay department of the army. He had a conference with the president, Secretary Alger, Adjutant General Corbin and Attorney General Griggs, all of whom feel a deep interest in the matter. Major Byrne departed for New York much encouraged. The president referred the matter to the secretary of war, who had it made special. The attorney general's department is trying to find a way to re-establish a rule which proved so effective in the civil war.

To Go to Honolulu. San Francisco, July 22.—After the troops going to Manila on the Rio de Janeiro embark on that vessel on Friday there will remain at Camp Merritt 223 officers and 7,018 enlisted men. With the exception of the troops to sail on the St. Paul and Scandia within a week or so, all of these men will be transferred to the new camping grounds at the Presidio, where a supply of water is now being piped. The division field hospital will at once be moved to the government reservation. The Lakme and Alliance will probably be employed to take the New York regiment to Honolulu.

LATE NEWS BY TELEGRAPH.

HAS SAILED FROM CUBA.

Strong Expedition Sets Out for Porto Rico.

EXPECTED TO LAND SUNDAY.

Formidable Naval Convoy Furnished, Including the Battleship Massachusetts—More Transports with Troops Will Join the Fleet on the Ocean.

Washington, July 22.—Gen. Miles is at last well on his way to Porto Rico, unless some inexplicable obstacle has been thrown in his way. According to all calculations of the experts of the navy and war departments he ought to land on Sunday, a day in advance of Gen. Wilson, who left Charleston Wednesday. The distance from Guantanamo to Cape San Juan is exactly 600 miles, which under ordinary circumstances could be covered by the Yale and Columbia in two days, steaming at a thirteen-knot rate, but it is thought that the Massachusetts, Dixie, Gloucester, Cincinnati, Annapolis, Wasp and Leyden, the latter an ordinary tugboat, will reduce the speed of the flotilla to about nine knots, which would consume three days in covering the distance.

From Charleston Gen. Wilson, in the Grand Duchess, Mobile and Ogdan, has 1,100 miles to go, which at a rate between eleven and twelve knots—such as these vessels are easily capable of doing—would bring him to Cape San Juan in four days. Secretary Long said tonight that the three double-turreted monitors Miantonomah, Terror and Amphitrite should get to Porto Rico as soon as Gen. Miles does, and it is the impression that they will join him off the north coast of Haiti.

By the time Gen. Miles, with Gen. Wilson's forces, reaches the immediate vicinity of San Juan city additional troops from Gen. Brooke's corps will re-enforce him. Gen. Haines' brigade is ready to leave Chickamauga tomorrow morning, and ships to transport it have left New York for Newport News.

Secretary Alger believes that Gen. Miles on the Yale will arrive at his destination Sunday morning with 3,000 men under his immediate command. A day later will come 4,000 men on transports and the day following that 3,500 more. Whether the landing will be deferred until the arrival of this entire force or whether Gen. Miles will take the initiative and hoist the flag himself on Porto Rican soil is left to the discretion of that officer. It is the department's determination that he shall not lack for troops or equipment and this first expedition may be followed by several others as fast as the troops can be got ready until word comes from the general that he needs no more.

Gen. Schwan's brigade, comprising the Fifth, the Eleventh and the Nineteenth United States Infantry, a splendid body of trained soldiers, sailed from Tampa Thursday to join Gen. Miles, and if the Porto Rican expedition is not an immediate success it will not be for lack of disposition in the war department to supply every requisite.

Gen. Garcia Has Resigned. Santiago de Cuba, July 22.—The ill-feeling produced among the Cubans by Gen. Shafter's latest orders in Santiago has culminated in a serious rupture between Gen. Shafter and Gen. Garcia. As a consequence Gen. Garcia has withdrawn with his army from the outskirts of Santiago to the interior, taking the road to Jiguani. He first held a council of his officers, and tendered to Gen. Gomez, the Cuban commander-in-chief, his resignation as commander of the Cuban army of the east. A special courier was sent to Gen. Gomez's headquarters, carrying the resignation.

To Save Two Spanish Ships. Washington, July 22.—Admiral Sampson has reported to the navy department that very satisfactory progress was being made in the work on the wrecks of the Spanish armored cruiser Maria Teresa. He said the wrecking company thought she would be raised by Sunday next. The admiral also reports that a board of officers has examined the wreck of the Reina Mercedes, sunk at the entrance of Santiago harbor, and finds that she will probably be saved.

Troops Leave Camp Thomas. Chickamauga Park, Ga., July 22.—The movement of the troops from Camp Thomas for the Porto Rican expedition began today. The entire First corps will go with Gen. Brooke unless some change is made in the plans before the troops get out. This means that not less than 38,000 men, two-thirds of the army here, will form the expedition from Camp Thomas. These figures include the three regiments which have just embarked at Charleston under Gen. Wilson.

All Quiet at Santiago. Santiago de Cuba, July 22.—The city is gradually resuming its normal aspect. Signs of business activity are visible everywhere in the opening of shops, stores, etc., and merchants who fled from the city when its bombardment was threatened are actively engaged in putting in order their places of business.

Indiana Soldier Dies in Florida. Gosheim, Ind., July 22.—Lieut. Charles Slade of the One Hundred and Fifty-seventh Indiana volunteers, who lived here, died Thursday in the regimental

hospital at Tampa, Fla., of malarial fever.

Santiago Mines Were Useless. Santiago de Cuba, July 22.—Lieut. Deleahanty, commander of the Suwanee, is removing the mines, torpedoes and other obstructions in the harbor. The mines are found to be almost useless. They are covered with marine growth and barnacles and in some of them the explosives are saturated with water.

Will Continue War to the Limit. London, July 22.—According to a special dispatch from Madrid, Senor Sagasta, the premier, has again offered to resign, and has been counseled by the queen regent to advise with other political leaders relative to his future course. Gen. Weyler will form a cabinet in which Gen. Polavieja will be minister for war. This combination, it is further asserted, will support the dynasty, repeal the suspension of constitutional rights and continue the war to the utmost limits.

To Keep America Out of Europe. Paris, July 22.—The Figaro says: "It is time the powers took extra measures to prevent Commodore Watson's dispatch to Europe and to end the war. Italy, Austria, Russia and especially France have the greatest interest in reminding the United States that they cannot allow America to acquire a footing in Europe. The friendly representations of these four powers at Washington will, it is hoped, enable the United States to perceive the dangerous course on which it is embarking."

To Move Against Holguin. Washington, July 22.—Gen. Shafter's plans contemplate the marching of his army north into the mountains, with a view of preserving the health of the troops. A campaign against Holguin, which is occupied by 10,000 Spanish troops under command of Gen. Laque, may be the result of this movement.

Fever No Longer Feared. Washington, July 22.—No official reports are obtainable at the war department as to the yellow fever conditions among the troops at Santiago. The officials are, however, satisfied with the assurances conveyed by Dr. Greenleaf that the disease is mild in type.

To Bring Gen. Duffield North. Washington, July 22.—Instructions have been sent to Gen. Shafter to have Brig. Gen. Duffield sent north to the United States, the medical reports indicating that his convalescence would be very much hastened by a cooler temperature.

Sampson Instead of Watson. New York, July 22.—It is reported, says the Washington correspondent of the Times, that Admiral Sampson will be detached from the command at Santiago and put in charge of the eastern squadron, leaving Commodore Watson to take his place.

Fight Fought at Camp Alger. Washington, July 22.—Only two new cases of typhoid fever were reported at Camp Alger Thursday. All the typhoid patients at Fort Meyer are improving and the surgeons are very hopeful that there will be no more deaths.

Peace Rumors Denied in Madrid. Madrid, July 22.—A newspaper here publishes a statement from a cabinet minister, who says he is absolutely ignorant of any peace negotiations.

McKinley May Attend. Rock Island, Ill., July 22.—Rock Island is making extensive preparations for the entertainment of the national encampment of the Union Veterans' union, which will be held here Aug. 8 to 12. Among the features are a war concert and a campfire. President McKinley has agreed to attend if his duties are such as to allow the taking of the western trip, which he has contemplated for some time.

Wisconsin Populist Call. Milwaukee, Wis., July 22.—Chairman Robert Schilling of the people's party has issued the call for the state convention, which will be held in this city Aug. 31. Every county in the state will be entitled to four delegates and an additional delegate for every 100 votes or greater fractional part cast for the people's party ticket in 1894.

Will Appeal to Congress. Chicago, July 22.—Manufacturers of Illinois have decided to carry their fight against the telegraph companies into congress, now that their counsel, Levy Mayer, has decided that, in his opinion, the sender of a telegram and not the companies transmitting it must affix the adhesive stamp required by the war tax law.

Rock River Assembly to Meet. Dixon, Ill., July 22.—The Rock river assembly will open its eleventh annual session July 25 and close Aug. 11. The program offered is much more extensive and of higher grade than ever before. The admission and other charges will remain the same as last year.

Guarding Against Smallpox. Louisville, Ky., July 22.—The state board of health has issued a proclamation placing the whole of Jackson county and each of its inhabitants under rigid quarantine from the outside world. There have been more than 100 cases of smallpox in the county.

WILL SOON TAKE MANILA.

Admiral Dewey and General Anderson to Act.

SOLDIERS IN READINESS.

The City Must Be Yielded Before This Week Closes or Our Ships Will Bombard—News of Cervera's Defeat Has Reached the Spaniards.

Manila, July 18 (via Hongkong, July 22).—Unless the Spaniards surrender in the meantime, Rear Admiral Dewey will bombard the fortifications of Manila by the end of this week, provided the troops are ready to take possession immediately.

Manila Bay, July 18, via Hongkong, July 22).—The United States transports China, Colon, Senator and Zealandia, bringing the second detachment of American troops, under Gen. Greene, have arrived.

The China, Gen. Greene's flagship, finished its long journey on the afternoon of the 16th and entered the bay. The other transports did not come within sight of Corregidor until morning, so they lay outside until morning. All the ships received a hearty welcome from the warships in the bay and from the American soldiers at Cavite. The transports steamed all the way from Honolulu in an absolute calm, and the 3,450 soldiers have arrived in excellent health and fine spirits. When this dispatch is sent they still remain on the transports, and there are indications that they may take the field near Manila against the Spanish immediately on landing.

The movement of American troops looking to the capture and occupation of Manila may be said to have begun, for the first of Gen. Anderson's troops to take the field, comprising a battalion of 300 men, on the 15th inst., marched to a point two miles beyond Paranaque and two miles south of Malate, where they hold an entrenched position at Gajunda. Gen. Greene and Gen. Anderson are making reconnaissances in the vicinity of Malibon and Baker for the purpose of locating convenient camps above and below Manila, preparatory to the shore work which will follow Admiral Dewey's bombardment of the city or its peaceful surrender by the Spanish authorities.

Twenty-four men and officers under Col. Duboce have formed a camp at Tambo. Lieut. Clark has made a detour of the city and selected camping places for more troops, which will be put into the field as rapidly as possible.

In consequence of the news of the outcome of the naval battle off Santiago it is believed in the fleet and by the troops that immediate action is to be taken against Manila. The Spaniards in the city are reported to be disheartened and despairing on account of the return of Admiral Cervera's fleet to Spain.

Says 40,000 Will Go to Manila. San Francisco, Cal., July 22.—An afternoon paper asserts on the authority of an unnamed army officer that 40,000 troops will be sent to the Philippines from this city. The assertion is based on the surmise that the insurgents will give the United States trouble and that it will require at least 40,000 United States soldiers to preserve order in the islands. Preparations are being made to rush the available transports, and nearly 4,000 soldiers will be dispatched in two weeks.

More Naval Aid for Dewey. Washington, July 22.—Rear Admiral Dewey's force in Manila bay is to be re-enforced by a battle-ship, to be detached from the eastern squadron, and the protected cruiser Philadelphia.

Mining Rate Fixed at 33 Cents. Springfield, Ill., July 22.—The state board of arbitration in an opinion rendered Thursday fixes the mining price at 33 cents a ton, run of mine. The operators refused to pay the price fixed by the Springfield scale (40 cents), effective April 1, and closed their mines. The men offered to work for 35 cents, but this proposition was rejected. Then the men, about 600 in all, asked the board of arbitration to fix the price. The opinion is not binding on the operators, for the reason that they did not join in the proceedings, but it is believed that it will be accepted by them.

Admits Ills Cash Is Short. Milwaukee, Wis., July 22.—John Harvey Myers, secretary of the Home Building and Loan association of this city, is short in his accounts to the amount of \$30,000. The money is said to have been squandered in unfortunate real estate transactions.

Strikers Leave Oshkosh. Oshkosh, Wis., July 22.—The striking woodworkers are departing from Oshkosh in large numbers. It is stated that within the last month 800 strikers have left the city in the hope of securing employment elsewhere.

Nebraska Crops Are All Right. Lincoln, Neb., July 22.—The state board of agriculture declares there is no foundation for reports that corn is suffering on account of the hot and dry weather.

President of Glass Workers. Zanesville, O., July 22.—The Flint Glass Workers of the United States and Canada elected William J. Smith, Pittsburg, president.

French Steamer Captured. New York, July 22.—A special dispatch to the Journal from St. Thomas, D. W. I., says: "The cruiser New Orleans has captured the French liner Olinde-Rodriguez, which was trying to run the San Juan blockade. This steamer was formerly the Francenda, and has been plying between Havre and Haitian ports. It was captured while attempting to run the blockade at San Juan, although after leaving San Juan, July 4, it was warned not to attempt to enter on its return voyage."

Relief Guts to Whalers. Seattle, Wash., July 22.—A member of the revenue cutter Bear relief expedition writes from Point Barrow, under date of March 27, confirming the news received from Capt. Tuttle that the imprisoned whalers had been reached and that they were better off than had been expected. Most of the vessels can be saved and the men have not suffered seriously, having subsisted on fish and wild reindeer.
